

OPTCONNECT NEO2 QUICK START GUIDE

Verify that the neo2 Cell Modem is connected with Max Connect

1. In **ADMIN PAGE 1** Network is set to **192.168.1.11** and **“NEO”** is visible.
 - a. If **“NEO” IS VISIBLE**, proceed to next section **“Open VPN Windows Install Guide”** or **“OpenVPN iOS Install Guide”**
 - b. If **“NEO” IS NOT VISIBLE**, proceed to the next step.

2. Install USB Keyboard and press **“PgDN”**. The POS will shut down to enable the network.
3. With the neo2 still ON, unplug the pi board power plug for a few seconds as illustrated below. Plug the pi power plug to power on the Max Connect System.

4. NETWORK should have an IP address listed, update the IP address to **192.168.1.11** and press **“PgDN”**. **“NEO”** should now appear next to NETWORK and POS will shut down.
5. Repeat step 3.
6. If **“NEO”** is still not visible, repeat steps 2-4. If still not visible, **contact TECH-DIRECT 920-850-7409**.
